Benefits of an Al Operating System

Multiservice line:

Connects several specialties

Seamless to the user:

Consolidating alerts from many Al solutions into a unified workflow experience

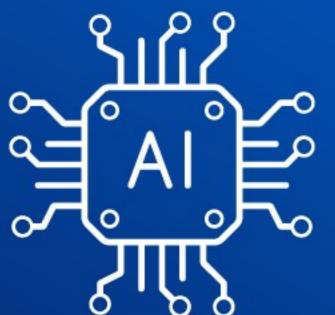

Scalable:

Can accelerate AI
adoption and integrate
third party solutions.
Enabling 50+ use-cases
up and running over
the next few years

Measureable:

Tailored to provide data-driven ROI

Interoperable:

Integrates within native workflow and IT infrastructure (PACS, EHR, scheduling, etc.)

Clear governance:

Al on a platform continues to be monitored and maintained

Purpose-built:

Coordinates and deploys algorithms and applications across systems
