Breakthrough Clinical AI Tailored to Radiology Workflows

Aidoc has nearly a decade of expertise in AI-driven radiologist support.

Too many solutions bypass the reading room, disrupt workflows or fall short on reliability. Aidoc is different.

We built our Radiology Solution to **amplify radiologists' expertise** — not replace it. With AI that integrates directly into your workflow, Aidoc delivers **timely, actionable insights** where and when they matter most.

- ✓ Unmatched algorithm performance
- ✓ Clinically significant findings
- ✓ Seamless integration with existing systems
- ✓ Full-spectrum support*: triage, detection, measurement and reporting

Aidoc helps radiology departments scale with confidence — solving for:

- Radiologist shortages
- Rising exam volumes
- Workflow inefficiencies
- Diagnostic errors*

Radiologists bring expertise. AI brings speed. Together, they unlock capacity.

Proven. Trusted. Scalable.

18 FDA clearances

150+ health systems

180+ peer-reviewed studies

*Includes both in-house and third-party FDA-cleared algorithms on the Aidoc platform.

CARE™ – Aidoc's Foundation Model for Clinical AI

Meet the **Clinical AI Reasoning Engine (CARE™)** — Aidoc's next-gen foundation model designed to scale clinical AI across radiology like never before.

Key Benefits

✓ Trained on **real-world, multimodal patient data**

✓ Lays the groundwork for **triage, detection, measurement** and more

✓ Accelerates **disease state expansion** through rapid algorithm development

✓ Aims to unify imaging, labs, vitals, notes and reports to drive **more context-aware results**

✓ Fully integrated with Aidoc's **aiOS™ enterprise platform**

Aidoc's new **Radiology Master package, featuring CARE™** delivers expanded radiology workflow support, including:

30+ AI algorithms across head, chest, abdomen and body

New multi-triage algorithm identifies up to 15 additional pathologies*

Scalable decision support across modalities and workflows

See CARE™ in action.

Book a meeting with our team to explore the Radiology Master package and how Aidoc's CARE™ model is transforming the future of radiology AI.

Schedule your meeting today: https://events.aidoc.com/rsna-2025-booth-meeting-lp

*Pending FDA clearance
